# CLARACEL VIP

4461

Fining product for musts with the capacity to activate the fermentation

Composition: plant proteins - bentonite - cellulose

## Data Sheet

Revision 26.10

Date 30/06/2026

### TECHNICAL SPECIFICATION

|                    | TECHNIQUES or ANALYTICAL METHOD (*) | LIMIT VALUES (legal or internal) | MEDIUM VALUES (by Quality Control) |
|--------------------|-------------------------------------|----------------------------------|------------------------------------|
| Physical state     | DC 1.01                             | powder                           | powder                             |
| Colour             | DC 1.02                             | cream                            | cream                              |
| Smell              | DC 1.03                             | light typical                    | light typical                      |
| Proteins           | DC 2.04                             | min 37%                          | compliant                          |
| Nitrogen           | DC 2.04                             | min 5.8%                         | compliant                          |
| Moisture           | DC 1.06                             | Max 10%                          | 8 - 9 %                            |
| Ash                | DC 1.07                             | Max 50%                          | compliant                          |
| pH susp. 5%        | DC 1.05                             | 6 - 8                            | 7 - 8                              |
| Dispersibility     | DC 1.04                             | good                             | good                               |
| Total heavy metals | ICP                                 | Max 10 ppm                       | compliant                          |
| Lead (soluble)     | ICP                                 | Max 5 ppm                        | compliant                          |
